Buty Salon offers seven Decléor facial treatments, each designed with different skin types in mind and all delivered with the highest standard of care and detail

The high standard of care and detail that each client receives has attracted loyal clients from the UK and overseas

With beauty studios in Hammersmith and Fulham, Buty Salon has been offering a range of health and beauty holistic treatments over the past 15 years. Its co-founder Sam Wimalaweera, also considered one of the top facialists of London, has developed the techniques based upon her expertise and instinct on skin issues, massage and how the mind connects with the body.

Only using a premium range of products by French skincare brand Decléor, Wimalaweera and her team create a tailored list of facial treatments that can treat all skin types. It includes a welcoming diagnostic back massage, deep cleanse, exfoliation, extraction, mask and a relaxing face massage. The combination of a holistic approach and the anti-ageing benefits of Decléor's carefully blended essential oils make for one of the most effective and satisfying facials in London.

"The salon's vision is to ensure that we put the soul back into professional beauty," Wimalaweera explains. "My massage and holistic therapy background has helped me to remain focused on achieving this, even with modern branded products. This tends to achieve even more amazing results for us compared to other salons using the same brands – all my staff have to be trained to this standard of care."

Each facial is designed to suit various skin types, with the use of a unique 100 per cent natural multi-vitamin mask. Your skin is immediately hydrated, re-vitalised and re-balanced. Clients immediately see and feel a complete difference after their very first treatment – a radiant complexion and velvety smooth skin. ■
